Why Chile? In recent years, Chile has developed an interesting process of democratic transition. Its emergent economy and novel reforms have made it a role model for other countries that desire to modify their own economic models. In an environment of regional uncertainty, Chile stands out due to the strength of its institutions, and its economic and social stability. Furthermore, the US and Chile signed a free trade agreement in September 2003. (www.chileinfo.com)

Chile, located in the extreme south of the American continent, possesses a diverse and richly fascinating geography, which includes the majestic Andes mountain range, the most arid desert in the world (Atacama Desert), volcanoes and salt deposits of amazing beauty, numerous white-sand beaches, lakes surrounded by native forest, national parks and the fascinating Patagonian region. Because of the varied and spectacular landscapes, you can enjoy different sports and activities such as adventure travel, ecotourism, skiing, fishing, nautical sports, thermal baths and national parks.
